

Part IA Chemistry

Course changes due to the effects of Covid-19 pandemic

Due to the effects of the Covid-19 pandemic and government guidance, we have had to make some changes to the programme in order to mitigate against risks to health and to give you the best possible academic experience in the circumstances. We will continue to monitor and respond to the changing public health situation. The changes are:

- All lectures will be delivered online
- The Part IA practical course will not operate: it will be replaced by series of exercises based on experimental work

The Part IA Course Guide will be updated around mid-September but the guide for 2019/20 provides a good overview of the lecture courses (no changes in content are planned for the coming year).
