

Part IB Chemistry A & B

Course changes due to the effects of Covid-19 pandemic

Due to the effects of the Covid-19 pandemic and government guidance, we have had to make some changes to the programme in order to mitigate against risks to health and to give you the best possible academic experience in the circumstances. We will continue to monitor and respond to the changing public health situation. The changes are:

- All lectures will be delivered online
- The Part IB Chemistry A & B practical courses will run as normal, but with some small changes to both the experiments and timetabling to comply with social distancing requirements

The Part IB Course Guide will be updated around mid-September but the guide for 2019/20 provides a good overview of the lecture courses (no changes in content are planned for the coming year).
